New Source Review newspaper advertisements for construction permit applications, December 11, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: December 4, December 9, December 10, or December 11, 2008. Public notices are generally published every two weeks. The previous publication of public notices was November 26, 2008.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Brockwell Construction Company</u> with a mailing address of <u>980 Thinwood Drive</u>, <u>Newport, TN 37821</u>. They seek to obtain an air contaminant permit (Division identification number: <u>15-0121-01/62276</u>) for construction of an <u>Air Curtain Destructor</u> at <u>262 Clay Hill Road</u>, <u>Newport TN 37821</u>. This proposed operation would consist of an air curtain incinerator for brush and wood waste disposal. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. O. Jacobsen is the assigned Division person.

For the Cocke County Newport Plain Talk – published once on or before Thursday, December 11, 2008.

The applicant is Minco, Inc., with a mailing address of 510 Midway Circle, Midway, TN 37809. They seek to obtain an air contaminant permit (Division identification number: 30-0129-46/62498) for modification of an existing Fused Silica Production Facility located at the same address. This existing operation consists of blending and screening equipment used to produce fused silica. Fabric filters are used to control particulate emissions. The requested modification is for the removal of a recordkeeping requirement. There would be no physical construction. Regulated air contaminants emitted by this source would not increase. Mr. T. Blake is the assigned Division person.

For the Greene County *Greeneville Sun* – published once on or before Thursday, December 11, 2008.

The applicant is <u>Tate and Lyle Ingredients Americas</u>, <u>Inc.</u> with a mailing address of <u>2200 E. Eldorado Street</u>, <u>Decatur</u>, <u>IL 62521</u>. They seek to obtain an air contaminant permit (Division identification number <u>53-0081/62482</u>) for the modification of their existing <u>Corn Wet Milling Facility</u> located at <u>198 Blair Bend Drive</u>, <u>Loudon</u>, <u>TN 37774</u>. This existing facility is made-up of a wet/meal feedhouse area, elevator area, refinery area, alcohol area and utilities area. The requested modification will add two additional gluten filters/pumps and not install one pellet cooler. The requested modification will also allow the existing feed dryer #1 to operate more than 30 days per year. A wet scrubber will control emissions from the new gluten filters/pumps. A regenerative thermal oxidizer will control emissions from feed dryer #1 beyond the 30 day period. There would be physical construction. Regulated air pollutants are emitted by this source. Mr. Steven Simpson is the assigned Division person.

The applicant is <u>Ready Mix USA, LLC</u> with a mailing address of <u>P.O. Box 101868, Birmingham, AL 35210</u>. They seek to obtain an air contaminant permit (Division identification number: <u>57-0341-01/62445</u>) for construction of a <u>Concrete Batch Plant Operation</u> located at <u>327 Fiberglass Road, Jackson, TN 38301</u>. This proposed operation would consist of gravel, crushed rock, and sand stockpiles, a cement silo, a mixer, and associated equipment used to produce ready-mix concrete. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

For the Madison County *Jackson Sun-Daily* – published once on or before Thursday, December 11, 2008.

The applicant is <u>GrafTech International Holdings LLC</u> with a mailing address of <u>791 Santa Fe Pike, Columbia, TN 38401</u>. They seek to obtain air contaminant permits for modification of air contaminant sources located at <u>the same address</u>, as follows:

- (1) <u>Bake C7K</u> (Division identification number: <u>60-0011-26/62491</u>). This existing source consists of sixteen (16) natural gas-fired furnaces used to bake carbonaceous material. Transfer of emissions between furnaces is used to control air contaminant emissions. The proposed modification is to allow for baking of new carbonaceous products in the existing furnaces. There would be no physical construction. Regulated air contaminants emitted by this source would increase.
- (2) <u>Bake Ring I</u> (Division identification number: <u>60-0011-31/62491</u>). This existing source consists of fourteen (14) natural gas-fired furnaces used to bake carbonaceous material. Transfer of emissions between furnaces is used to control air contaminant emissions. The proposed modification is to allow for baking of new carbonaceous products in the existing furnaces. There would be no physical construction. Regulated air contaminants emitted by this source would increase.
- (3) <u>Railcar Unloading Operation</u> (Division identification number: <u>60-0011-98/62491</u>). This existing equipment was previously permitted, but was subsequently removed from the permit. This source would consist of an existing hopper and conveyor used to unload raw materials and recycled materials for use in various manufacturing processes at the facility. A dust collector would be used to control particulate emissions. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. V. Murrell is the assigned Division person.

For the Maury County *The Daily Herald* – published once on or before Thursday, December 11, 2008.

The applicant is <u>Heil Trailer International</u> with a mailing address of <u>P.O. Box 160</u>, <u>Athens, TN 37371</u>. They seek to obtain an air contaminant permit (Division identification number: <u>54-0150-03/62419</u>) for modification of a Surface Coating operation located at <u>1125 Congress Parkway North</u>, <u>Athens, TN 37303</u>. This proposed modification would consist of adding one (1) spray booth and associated equipment used in the manufacture of highway transportation trailers. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. E. Peeler is the assigned Division person.

For the McMinn County *Daily Post-Athenian* – published once on or before December 4, 2008.
